

Varsity Welcomes All Members of Class '28

MARK LEVEY'S MESSAGE

The first number of The Gateway is usually prepared for the special benefit of all new students. It has also been the custom to ask the President of the Students' Union to write a message for publication in it. I take advantage of this privilege to extend on behalf of the old members of the Union a hearty welcome to those who joined our ranks a few days ago, including the pupils at the University Hospital.

We are glad to have so much fresh blood injected into our system, especially at a time of the year when we are sure to feel very keenly the loss of numerous of our most experienced and efficient members who graduated last spring.

Entrance to University is an interesting period in one's history. The new matriculate is called upon to assume, to a certain extent, his position as a factor in a larger, more cosmopolitan and perhaps more critical society. He is now accountable to himself and his fellow students for his conduct. In addition to the abstract studies of a scholastic course, he begins to learn the lessons resulting from mental contact with men and things. He learns in a more vivid way from the lessons of his own experience. His university career will inevitably present a shifting panorama of events, adventures, experiences, successes and failures.

The new student will naturally revolve in his mind the question of the selection of the athletic and literary activities to which he could devote his leisure moments with the greatest advantage to himself and his comrades. Our activities, many and diverse, have been so designed as to afford every man and woman an opportunity to develop his ability and talent in almost any direction. As The Gateway is publishing a comprehensive list of our organizations, I'll confine myself to a few remarks on some of the measures taken by the new Students' Council to carry on the business of the Union.

INITIATION NO
JOKE, SAY FROSH

Sophs Sit Firm On Fractious
Freshies—Big Time Promised
October 9th

If green and gold is the proper order of stating Varsity colors or not, at least green takes for itself the dominating place these days. They're green from neck to ankles—those Freshmen. But the Sophs are keenly in earnest, determined to impress on the "outlanders" their extreme ignorance, but at the same time to instruct them in the traditions of the University.

The Freshman hates initiation and likes it; the senior likes initiation and hates it. The former hates to be treated as if he were still in swaddling clothes and being fed on the bottle, but rather takes a liking in that don't-give-a-hang attitude that he eventually develops and finds in his fellow sufferers. He finds companions in misery that he might never have found otherwise.

The senior student likes initiation and hates it. Likes it because the Soph saves him the trouble of instructing the Frosh in the way he should go, but hates the bullying and injustice that sometimes appears in the odd Soph, who fails to grasp the true significance of initiation.

But the Sophs of this year are determined to improve over past mistakes. They are using a firm hand in the situation, bespoken by the many would-be Samsons among the Frosh, whose clipped locks bespeak the consequences of their folly and ignorance. At the same time the

(Continued on Page Four)

HOUSE DANCE SATURDAY

The Social Directorate announces a House Dance for Saturday evening, October 4th, in the Athabasca gym. The dance will commence at 7:30, and is informal. It is being given particularly for the Freshmen, and they are expected to turn out in force to enjoy themselves and get acquainted.

MARK LEVEY
President of Students' Union

under the Union. The system starts a series of permanent records on which future generations may be glad to draw for information and guidance. It is only by studying past records that better and more efficient methods of government are evolved.

Erick Cormack has been appointed to the position of "Central Check." As one of his duties, he made an inventory of all our equipment last spring, and now this is ready for redistribution to the managers of our various organizations.

The Union Reserve of \$300.00 was invested this summer in 5% Province of Alberta Bonds.

A small song book has been printed and a limited number of copies are now available at the University Book Store. Unfortunately, it was impossible to collect together during the summer much material, but it is hoped that the publication of the booklet will establish a precedent, and that it will be improved upon from year to year.

The amendments to the Constitution, together with a number of the resolutions approved by the Union, have been published this fall in the form of an appendix. It is the intention at present to revise and reprint the constitution this season.

To locate, guide and utilize talent and willing workers, a questionnaire was prepared for all new students to fill at the time of registration. This has the double advantage of assisting the executives of clubs and societies in arranging their programmes for the year and also of making the freshman and freshette feel at home in their new surroundings a little sooner than might otherwise be the case.

The Council discussed the advisability of taking some steps to insure an efficient way of entertaining visiting teams and of supervising other similar social functions. Without assuming any financial responsibility, a Social Directorate, consisting of three students, was appointed this year, and should the scheme prove satisfactory further steps ought to be taken for its further development.

And last, but not least, I wish to mention the Medical Services, although this organization does not come directly under the Students' Union. An effort has been made this year to place before the student body the facts concerning the administration of the Medical Services. This is a question which deserves and calls for our careful consideration and deliberation. We ought to consider the best means of subserving the interests of the students. Personally, I am of the opinion that the scope of the Services is not wide enough. I think it should do more for the students who are taken ill during the session, and particularly for those who meet with accidents while participating in college athletics and other activities. But as I have already tried to explain elsewhere, it is impossible to do more with the financial means at our disposal.

M. R. LEVEY,
President of Students' Union.

VARSITY YELL

This is the official University yell. Freshmen are expected to learn it by heart and be prepared to give it at a moment's notice.

"Varsity, Varsity, Rah, Rah, Rah,
Varsity, Varsity, Al-ber-ta, Hi-yi, Ki-yi, Rah, Rah, Rah,
Rip it out, tear it out, Al-ber-ta,
Varsity, Varsity, Hip-hoo-ray,
A-L-B-E-R-T-A."

PRACTICE BEGUN
BY TRACK MEN

Inter-University Meet Will Probably Be Held Oct. 18th, at Strathcona Park

GOOD MATERIAL

Bright and Cormack Back—Wealth of Other Material Makes Prospects Bright

When the track athletes from the three western universities meet on October 18th, at Strathcona Park, to decide who will carry the western honors for another year, it is assured that, barring accidents, Alberta will field a very formidable team. Bright, McRae, Barker, Osterland, and in all likelihood Cormack will be the best bets from last year's team, while among the other candidates Basset and Worthenbach will be invaluable additions, if not held up on account of scholastic difficulties.

"Ohs" Bright, Varsity's big, genial weight man, and holder of numerous championships, will be the bright light with the shot, discus, javelin and hammer. Bright won the provincial championship with the weights at the Lethbridge meet this summer, and repetition of his wins can be practically assured this fall.

Cormack, who broke the inter-university record for the three mile at last year's Saskatoon meet, threw a scare into the camp when it was reported that he had badly sprained his foot this summer, and would be unable to run in the coming meet, but fortunately for Varsity the injury was not as bad as first thought, it being Cormack's opinion that in this three and a half weeks prior to the meet the injury will heal sufficiently for him to participate in the distance runs.

Basset, winner of the provincial aggregate championship at Lethbridge this summer and expert jumper with the pole and at the pit, who was kept out of last year's meet by spraining his ankle a week prior to the event, is fit as ever, and if

FACULTY CHANGES
FOR NEW SESSION

Asst. Professor MacPhee Going to Toronto—Professor Klevin Also Leaving

NEW APPOINTMENTS

Sigvald Nielson, Graduate of Alberta, Appointed Lecturer in Law

The opening of session for 1924-25 will see many changes in the staff of the University, some of these being permanent, others temporary. One of the most significant of these changes will be the absence of Asst. Professor MacPhee, M.A., B.Ed., of the department of philosophy, who has left to take a position on the University of Toronto staff.

The departure of Mr. MacPhee will be keenly felt in outside as well as university circles. He delivered lectures in the various cities of the province from time to time, and will also be remembered as chairman of the committee in Edmonton which was appointed to investigate the work of Dr. Price. His lectures in applied psychology at the university were very popular among members of the teaching profession, in which he was much interested, while his ability and talents were greatly appreciated by the students of his classes.

It has just been announced that Professor Klevin, LL.B., B.C.L., is leaving to take up practice in Saskatoon, where he will also act as a member of the staff of the University of Saskatchewan. The success of the law faculty during the past year can be largely attributed to the work of Professors Weir and Klevin, while the latter, as honorary president of rugby, has done much to promote this sport, besides taking a sympathetic interest in the other major sports of the university. Mr. Klevin's departure will be a very great loss to the university.

Among those who have been granted a year's leave of absence are Associate Professor Cameron, M.Sc.;

A Welcome—The Gateway

The Gateway extends its heartiest welcome both to the old students, whose acquaintance we are glad to renew, and to the new students, to whom we wish success in their new field of endeavor. Varsity, with its manifold activities, comprises a little community of its own. Of these activities the students once over the ground will have already picked as their field those toward which their tastes and abilities incline them. But the task of choosing still awaits the Freshman, who, after his period of probation is over, must pick the organizations to which his spare hours will be devoted. For his own betterment, as well as for the success of student activities, the ideal new student will pick some worthwhile organization in which his interest will be evinced, but at the same time will avoid taking in too wide an area to the detriment of his studies.

The Gateway, which reflects and encourages through its pages the activities of student life, offers a field of opportunity to the student who wishes to use his literary ability in the service of his university. This field is open to all, and the staff will especially welcome enthusiastic volunteers who will give us their practical co-operation.

able to participate should set the pace in his division.

Worthenbach is a Saskatchewan man, apparently in the same class as the three aforementioned Alberta stars, who excels not only in the sprints, but also the jumps. Last year, under the green and white of Saskatchewan, he carried off the aggregate championship of the Saskatoon meet, and this year it is to be expected he will repeat his performance under the colors of Alberta.

Other Good Material

This year the meet being at Alberta, there is no expensive trip to pay for, with the result that Varsity will in all likelihood field a team of about fifteen men. For the sprints, McRae and Powell look good, while Begg from the Hat and Dockerill, a B.C. sprinter from Trail, are dark horses that may prove finds. Johns, Barker and Laidlaw are distance runners of marked ability, and Cliff Osterland, who made last name at last interfaculty track meet, is also reported as a possibility in this class. Fred Russel, a Hat boy, who acquitted himself well at this year's provincial meet, looks good for the hurdles.

To supplement a strong slate of runners Alberta has also this year jumpers and weight men. Basset, Worthenbach, Powell and Osterland in the former class, and Bright and Osterland in the latter, will round off a team which, barring untoward happenings, cannot help but prove a contender for the inter-university championship.

There is no doubt much latent material for the track which has not been unearthed as yet. At any rate, for the sake of the University's showing, as well as for the honors to be won, it is urged that everyone with ability in this line should turn out. Small "A's" are awarded for those who make the team, medals for those who get places in the events, while championship "A's" are given for

Assistant Professors McGouin, M.A., B.C.L., and Bridgman, M.A.; Mr. Salter, B.A., M.A., and Mr. Moss, M.A. Practically all these former members of the staff are taking work leading to their doctors' degree, Mr. McGouin being at Columbia, Mr. Salter at Chicago, and Mr. Moss at Toronto.

Several new appointments have also been made to the staff. Mr. M. E. Lazerte, B.A. (Toronto), former inspector of schools for Alberta, has been appointed lecturer in philosophy to replace Mr. MacPhee, while Mr. W. A. Drummond, B.A. (Queens), M.A. (Toronto), will act in Mr. McGouin's place.

Two very popular appointments are those of two former Alberta students, Mr. Cook, B.A. (Alberta), M.A. (Harvard), in the department of Mathematics, and Mr. Sigvald Nielson, B.A., LL.B. (Alberta), as instructor in Law. Both of these men have had brilliant records as students, the latter having not only taken the Carswell Prize in Law for two successive years, but being also prominent in student affairs as union prosecutor of the Students' Court.

Two sessional lecturers have been appointed in the department of English, Mrs. C. L. Huskins, B.A. (Alberta), and Mr. A. R. Jewett, B.A. Mrs. Huskins is an honours graduate, who took a prominent part in the dramatic activities of the University. Miss Winnifred Hughes, M.A. (Sask.), has been appointed to take the place of Mr. Harkness, former lecturer in Zoology, who has resigned.

those who win an inter-university championship.

The track on the grid, maintained by the University, is in very bad shape this year, so that in all probability the place for holding the meet will be changed to Strathcona Park, where more satisfactory conditions are obtainable.

THE PRESIDENT'S WELCOME

DR. H. M. TORY
President of the UniversityOXFORD DEBATERS
HERE NOVEMBER 21

British Premier's Son One of English Team—All Ex-Presidents of Oxford Union

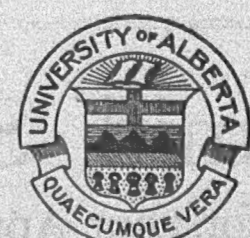

November 21st is the date set for the Oxford-Varsity debate, when three distinguished representatives of that great university will meet the pick of Alberta's debaters. Malcolm MacDonald, son of the Rt. Hon. Ramsay MacDonald, prime minister of Great Britain, is one of the visiting Oxonians.

The English team will arrive in Edmonton from Saskatoon at 7:05 a.m. Thursday, November 20, and the debate will be held the following evening. The team will consist of Messrs. MacDonald, J. D. Woodruff and M. C. Hollif. That the team will be an extraordinarily strong one is evident, as all three debaters are ex-presidents of the Oxford Union. As Mr. MacDonald is an ardent Socialist his remarks will be followed with great interest by the Alberta students.

Owing to the fact that H. D. MacKay will not be returning this year, the Alberta team will consist of Geo. J. Bryan, B.A., J. W. O'Brien, and J. C. Mahaffy. All three have had considerable previous debating experience, and can be depended upon to ably represent their Alma Mater. The departure of Professors McGouin, Klevin, MacPhee and Mr. Salter will leave vacancies in the coaching staff that will be very hard to fill, and the team will greatly miss their assistance.

The subject of debate is one which should arouse a keen interest throughout the whole province: "Resolved, that the external affairs of Canada should be conducted solely by the King on the advice of his Canadian ministers, all agreements thereby negotiated enforceable by and upon Canada alone." It is possible that the debate will be held in one of the overtown auditoriums, as it is practically certain that Convocation Hall would be entirely too small to accommodate the crowd expected to attend.

It has been rumored that C. K. Johns may be forced to resign his position as president of the Debating Society owing to the pressure of other work. Mr. Johns, when interviewed by The Gateway as to the truth of this rumor, said that while as yet he had not finally decided to resign, he believed that he would be forced to do so before long. It is hoped that this will not become necessary, for the society would lose a very able executive head.

This is the official University crest. Our motto is "Quaecumque Vera," which means "Whatever Things Are True."

The opening of a new college term always brings to the University halls faces old and new. As in former years, I wish to give a word of welcome to those who are returning to take up their work again at the University, and also to those who come to the University for the first time. To those returning after the holidays, may I express the hope that a happy holiday has been enjoyed, and that absence from the University has stimulated a keener interest in the activities awaiting you during the coming year. To you who are entering the University for the first time, I can assure you that a wholly new set of experiences is in store for you. I wonder if you realize to what extent you are favored in comparison with other young people of your own age scattered throughout the province. Ten or twelve years ago, from ten to fifteen thousand pupils entered school in the various parts of this province for the first time. Through the vicissitudes of school life only the small number of students who are with us here have reached the stage where they can take advantage of the benefits which the University has to offer. This is a very small percentage of the whole. I assume that this has come about because you possess at least two characteristics: first, a strong desire to continue your studies and to extend your knowledge of the world of men and things; and second, that you have that sort of zeal and energy which has enabled you to overcome the difficulties that have beset your path. If these things are true, then a very happy time awaits you at the University. Here you will find you have many new lessons of life to learn, not least among these being to measure your courage, ability and zeal against others of equal training and experience. If this brings to you no other knowledge than a better understanding of the way of life, you will be amply rewarded. I cannot do better than repeat the closing words of my last year's welcome: "Here you will find a great fellowship. Try to enter it and be worthy of it."

H. M. TORY,
President.VACANCIES WILL
SOON BE FILLED

Elections for President of Lit. and Two House Committee Members Necessary

The election atmosphere seems all-pervading in the world at this particular time, and Varsity, too, will soon be plunged into one of these democratic demonstrations on the part of the proletariat.

The president of the Literary Association, H. D. MacKay, has gone to Harvard to continue his legal studies, and an election to fill this vacancy must be held. Speculations are, of course, rife as to who the candidates are likely to be, but present indications do not favor the belief that any wild scramble for the position will ensue. Ted Gowan, who ran last year against MacKay, is mentioned as a possible candidate. He made an excellent run for the position then, and would be sure to receive good support should he wish to contest the office again. Not being available at the time of going to press, it is not known whether he would consent to having his name placed in nomination again or not. Walter Herbert, who held this position two years ago and made a very creditable record, is mentioned as another possible contender. Herbert has been out for a year, and as he does not hold any other student office, it is practically certain that his friends will place his name in nomination. Being an excellent executive man, he would stand a good chance of election, and it is believed that he is not adverse to accepting the nomination.

The position is an important one, and it is hoped that a strong man may be elected.

The resignations of John Claxton and Chas. Richert from the Men's House Committee will necessitate an election there also. As the candidates must be seniors or graduates and be in residence, the field is a narrow one. However, several good candidates have already been suggested. Keith Muir, a former president of Men's Athletics, is returning this year, and would make an excellent candidate. Wes. Watts, Joe O'Brien, Eric Cormack, C. K. Johns, W. Selnes, Chas. Flack, Ernie Campbell, Anns. Bright and others are also mentioned.

It is possible that the latter election will be held in the dining hall about the middle or latter part of the week, in order that the Committee may complete arrangements for the allocation of permanent tables, and get under way with as little delay as possible.

THE NEW STUDENT

The University of Alberta, through the columns of this issue of The Gateway, officially welcomes the members of Class '28 to its ranks. The President of the University, as the representative not only of the faculty, but also of the whole institution, has welcomed the new students, as has also the President of the Students' Union as the representative more particularly of the students. The Gateway has made these welcomes practical by embodying them in a number of the paper which has been devoted more especially to the interests of the new students. Class '24 left these halls last spring. The members of Class '28 have stepped in to fill the vacancy thus created, and it is their duty to fill it to the best of their ability. How can they do this?

It is generally agreed that the primary reason why anyone should attend a university is that because of that attendance he may be better fitted to take his place in the world as a useful citizen of his country. A man is not a useful citizen who is dependent upon the state for his existence. A useful citizen is self-supporting, and contributes in service his share towards the general happiness of his fellows. The University aims to equip its graduates for this, and adopts as its chief method the instruction of the student in the class-room in the great truths of life. The first duty of the student, then, to himself and to those who have made his education possible is to aim at a mastery of his scholastic studies. To learn the art of living is the fundamental object and this is of first importance. The second and almost equally important means of attaining this object lie in the social intercourse of the student with his fellows. To obtain the maximum in results from this field, he should enter enthusiastically a varied and diverse, but nevertheless restricted, set of activities. He should not attempt everything, and thereby fail in all, but should, after a careful survey of the many fields open to him, enter heartily into a few in which he is most interested, and from which he may derive most benefit. To keep physically fit is essential, and athletics is a field in which great benefit may be obtained. Debating, dramatics, newspaper work and the other divisions of the literary field should be reviewed, and one, two, or at most three, of these concentrated upon.

To new students our best advice is: Enter heartily into the spirit of the institution, mix freely with your fellows, and by adopting "Truth" as your motto, be thus fitted upon graduation to play the part expected of you in the world as a useful citizen. By doing this you will have performed the duty placed upon your shoulders by those whose places you are now to fill.

APROPOS

This year, more than in the past few years, the Sophomores seem to have realized that the real purpose of Initiation is to give instruction to the Freshmen as to the ways of a University, and not merely to provide some childish horseplay for a group of students.

The Gateway congratulates its old chief, Wilf Wees, whose marriage to Miss Frances Johnson took place on Saturday. We wish them both all happiness and prosperity.

The Gateway speaks for all when it expresses its keen appreciation of the loss sustained by the University in the resignations of Professors Kievin and MacPhee. Popular with staff and students alike, we can ill afford to lose men who in themselves so well represented that high standard of scholarship and character which is the student's ideal in a teacher.

Every merchant advertising with The Gateway this year has been given a display card stating that his is an official University store. Advertisements have been accepted only from thoroughly reliable firms, and Varsity students patronizing them are assured of special attention and service on acquainting these merchants of the fact that they are from Varsity.

D. LITT. CONFERRED ON ALBERTA MAN

Professor Macdonald Is Highly Honored By University of Edinburgh

On Assistant Professor Macdonald, of the department of philosophy, was conferred the degree of D. Litt. at the annual graduating ceremony of the University of Edinburgh, held on July 17 last.

This degree, Doctor of Letters, is the highest doctorate given in the old land in the field of Arts, the degree of Doctor of Science being the highest honor conferred in the field of pure science. Before attaining this degree it is necessary that the candidate shall have taken his Master's degree with first-class honors in the subject in which he intends to qualify for his Doctor's degree. Furthermore, after honors are attained at least five years must elapse before the candidate is eligible for this degree.

The subject of Dr. Macdonald's thesis on which the award was based was "The Education of the Ethical Consciousness."

Dr. Macdonald was personally present at the graduation exercises, after which he spent a pleasant holiday on the continent, where, in company with Professor Sonet, he had an interesting and very enjoyable three weeks' cycling tour through France.

MEDICAL SERVICE PLAN EXPLAINED

Medical Service Committee Has Issued Pamphlet Explaining System

Last spring the Students' Union approved a motion to have the Medical Service fee raised from \$3.00 to \$5.00. The discussions which followed the passing of this resolution made it quite apparent that the large majority of students were not acquainted with the organization and administration of the Medical Services of the University of Alberta. To this lack of knowledge must be attributed the misunderstandings which arose in the past between individual students and those charged with the administration of the Medical Services. To remedy this, every student was given this fall, at time of registration, a "pamphlet" detailing as clearly as possible the objects of the organization, the mode of its administration, and what students may expect in return for the annual fee of \$5.00. The context of the pamphlet is reproduced below, but it may not be amiss to emphasize here a few of its salient points.

The payment of this small fee does not entitle the contributor to ordinary illness and accident insurance policy benefits. It is not an insurance scheme at all. It is merely a students' fund, absolutely limited by the contributions made by the students themselves.

It can not be emphasized too strongly that neither the University can be held responsible for any deficits that may occur in the administration of this fund, nor can the Students' Union Treasury assume the responsibility, for the funds are not administered by the Union executive.

Being a students' fund, authorized by the Students' Union, any student has the privilege of bringing up at a Students' Union meeting any general question arising out of the administration and organization of the Medical Services.

The extent of the field of action of the Medical Services is necessarily limited by the funds at its disposal.

A few of the more regular items of expenditure are:

Honorarium to the Director of Medical Services.....	\$ 500.00
Honorarium to the Resident House Physician	500.00
Nurse's salary for session (approx.)	800.00
Nurse's board (approx.)	200.00
Telephones (approx.)	65.00
Drugs, etc. (approx.)	200.00
	\$2,265.00

It is obvious that over a half of the amount collected in fees is spent in what may be termed fixed charges.

Owing to a few long cases in the hospitals during the past two years the Medical Service starts the 1924-25 academic year with a deficit of about \$1,400.00.

In view of this fact it has been deemed inadvisable for the Medical Services to assume financial responsibility for X-Ray charges, for hospitalization exceeding a period of a month, or for surgical fees even in cases of injury sustained while par-

ticipating in activities such as rugby, hockey, basketball, etc.

The arrangements made with the University Hospital for rates for students apply only to X-Rays and special laboratory tests. All other charges are the same as for any other patients.

It is not to be understood that the University makes no contribution whatever towards the Medical Services. The rooms in the Infirmary in Athabasca Hall, with furniture and appliances, as well as the services of maid and janitor, are supplied by the University.

It would perhaps be well for every student to realize that the Director of Medical Services and the Resident House Physician give their services almost gratuitously. A casual glance at the figures showing the number of students treated last year would reveal that the total amount of money collected as Medical Service fees would not begin to cover half the amount that would be required if these two gentlemen were to be paid regular fees for the professional services they rendered the students last session. For their faithful services, members of the Students' Union, collectively and individually, owe them a debt of gratitude.

The work of the President of the University and the Provost, who have been members of the Medical Service Committee ever since its inception, is deserving of much appreciation, although it has been little if at all recognized publicly. On the contrary, the non-student members of the Committee have been occasionally the target of criticism, but this was entirely due to the fact that students did not quite understand the organization and scope of the Medical Services.

VARSITY RUGBY PROSPECTS GOOD

Strong Line Assured — Much Promising Material For Backfield Division

Prospects for another successful rugby season look bright, for though rugby enthusiasts have had fond hopes blasted in the failure of Savage, McNeill, Leppard and Davis to return this year, other stars are looming up to take the places of these, while many of the old reliables will again see in uniform. The team will, however, feel seriously the loss of "Chief" Davis, star end wing, and President of Rugby, whose absence will necessitate an election for the latter office.

From present indications the Varsity line, which last year proved its strength against both the Eskimos and Calgary 50th Battalion, will be practically intact. True, Wrinche's yard-gaining plunges and Davis' deadly tackling will be missed, but with Selnes, Lefsrud, MacLaren, Backman, Agnew and other experienced men as a nucleus, it can be said with confidence that Coach Bill will supply these deficiencies.

Prospects for a good backfield are even brighter than they were last year at this time. Henderson will be back, better than ever after the valuable experience he gained last season, while several former high school stars will provide a surplus of material to pick from, notably Piper of Calgary, and possibly Pullishy of Edmonton. Jack McAllister will be missed at quarter, particularly so since his understudy, Leppard, is not returning.

With some new material for the Senior team needed, the rugby program is well adapted to supply this. According to present plans the inter-faculty league will be played off

THE FACULTY GOLF TOURNAMENT DRAW

The first round is to be played October 4th.

G. Steer vs. R. M. Shaw; E. H. Strickland vs. J. D. Craig; Dr. Herbert vs. J. A. Kelso; C. U. Holmes vs. E. Sonet; R. S. L. Wilson vs. H. M. Vango; A. C. Rankin vs. J. McGregor Smith; D. E. Cameron vs. J. B. Collip; M. H. Long vs. E. W. Sheldon; A. W. Downs vs. R. W. Boyle; W. A. R. Kerr vs. C. A. Robb; R. Proctor vs. J. F. Coar; D. A. MacGibbon vs. H. Patton; N. B. Eddy vs. E. Stansfield; E. L. Pope vs. H. Orr; H. J. McLeod vs. F. Owen; A. W. Matthews vs. J. W. MacEachran.

The following have byes in the first round and play-off in the second round:

Evan Greene vs. J. M. MacEachran; E. C. Smith vs. J. Macdonald; W. G. Hardy vs. R. K. Gordon; H. Hepburn vs. J. Harris; J. J. Ower vs. E. A. Corbett; C. V. Jamieson vs. C. E. Burgess; A. L. Burt vs. Dr. Williamson; C. E. Race vs. A. West.

The present cup holder is A. W. Matthews, of the Department of Pharmacy.

first, after which the Senior team will be chosen to participate in inter-faculty rugby and in the play-off with the winner of the Calgary-Edmonton series. This plan of developing senior material through an inter-faculty league was found to give excellent results in 1922, since it not only provided ample practice, but secured the interest of the great body of students. There is every reason to hope it will be just as successful this year.

Use the sidewalks on the campus—the lawns have been cultivated for beauty and not to walk upon.

O.T.C. PRAISED BY MINISTER MILITIA

Best Record of Any Corps in Dominion—Special Courses This Year

Last year the University of Alberta had the best C.O.T.C. corps in the Dominion, according to a letter received from the Minister of Militia by Lieut.-Col. F. A. Stewart Dunn, commander of the University Corps.

Last year 34 A and B certificates were awarded as compared with only two the year before, and this year it is hoped that a full hundred commissions will be qualified for.

This year there will be a number of special courses for men who have already had some C.O.T.C. training. It has been arranged for to have courses in machine gun training, physical training, bayonet fighting, signalling and musketry, while for medical students of the second year and up there is a special course offered in training for the Canadian Army Medical Corps. A lieutenant's commission will be given to the successful entrants, who will have to write an examination some time in the spring, and a captaincy will be the reward of those who follow this up the next year.

Applied Science students have the privilege of entering the Flying Corps course for the five summer months, the course itself lasting three years. A provisional commission is given to entrants as soon as they don the uniform, and the commission is made permanent after the usual examinations. A keen competition is expected among Science students to be included in the allotment going from Alberta to Camp Borden next year.

It is expected that there will be a large number of applicants in all

FORMER EDITOR OF THE GATEWAY WEDS

"Wilf" Wees Unexpectedly Joins Benedictine Ranks—Has Best Wishes of Faculty and Students

A ceremony of great interest to Alberta students took place on Saturday, September 27, when Wilfrid R. Wees, B.A., was united in marriage to Miss Frances Johnson, of Saskatoon. Although the young couple have been engaged for some time, no announcement had ever been made, so that the wedding came as a complete surprise to Wilf's many Varsity friends, who are now inclined to think that the genial Mr. Wees has put one over on them.

The ceremony was performed by the Rev. Dr. T. J. Johnson at the home of Mr. and Mrs. R. A. Cameron, and was attended only by a few intimate friends of the bride and bridegroom. The bride was charming in a gown of soft pink Canton crepe, and carried a bouquet of Ophelia roses. The bride was attended by Mrs. Cameron, while the

branches of the C.O.T.C. this fall, and seniors and others who hope to be on the payroll should make their applications as soon as possible, as the corps is expected to be over payroll strength.

Several tactical day and night schemes have been planned, and announcements will soon be made about them.

Last year the University of Alberta C.O.T.C. rifle team gained the second highest score in the inter-university rifle shoot. This year it is hoped to make the Alberta C.O.T.C. excel in this as well as the number of commissions that will be awarded.

Notices regarding the C.O.T.C. will be posted as usual on the Arts and Medical Buildings signboards.

Several more promotions will be announced later. The full list of commissions obtained at the spring examinations is as follows:

Certificate B

Lieuts. W. B. Murray, C. S. Bissett, E. W. Cormack, C. E. Ruddy, Capt. J. Walker, F. R. D. Karan, C. L. Huskins.

Certificate A

Messrs. A. D. MacPherson, N. J. W. Arche, L. V. Bell, J. B. Boccock, M. Buriak, A. R. Crawford, A. B. Collier, P. G. Davies, E. W. Day, Ellis, P. K. Froman, L. S. Glass, C. R. M. Holmes, G. J. Knighton, S. G. MacDonald, J. G. McGregor, R. R. MacLean, W. G. Malaher, P. H. Malcolmson, C. K. Mast, R. W. Mawdsley, C. E. Moorehouse, W. H. Mueller, J. R. Pierce, E. R. Tavenard, D. H. Thomas, R. E. Walton, W. R. Wees, C. V. F. Weir, E. B. Wilson, V. R. Younge.

VARSITY BARBER SHOP

Basement of Arts Bldg.

groom was supported by Mr. Cameron.

The rooms were prettily decorated in a pink and white scheme, with a delightful profusion of cut flowers. The buffet luncheon, which was served following the ceremony, was presided over by Miss Lillian Johnson, sister of the bride.

"Wilf," as he was known to his Varsity friends, was at one time Editor-in-Chief of The Gateway, and has always occupied a prominent position in student affairs here. He graduated with the degree of Bachelor of Arts in 1923, and last year, while taking graduate work in philosophy, was president of the Liter-

ary Association. He has been editor of the University Year Book, and has taken leading roles in many of the productions of the Dramatic Society, besides holding many other official positions in the student body. He is at present vice-principal of the Garneau public school.

Mrs. Wees has been a member of the teaching staff of the Saskatoon schools, and has lately been associated with the Dominion Chautauquas.

The happy couple will reside in the Whyte block, Whyte avenue, and have the hearty congratulations and best wishes both of the faculty and students of the University.

AG. STOCK JUDGES TOURED PROVINCE

Visited Prince's Ranch at High River—Team Will Be Chosen to Go East
(E.W.C.)

Covering over six hundred miles by car, and visiting fourteen of the best purebred stock farms in the province, the boys taking Animal Husbandry work in the senior year have just completed a trip such as few have the good fortune to enjoy. Starting from Edmonton on September 20th, in those hardy roadsters, the Dean's Dodge and the F. H. Ford, the youthful stock judges, accompanied by Dean Howes and Profs. Sackville and Sinclair, drove through to Calgary and on to High River, picking up an odd student en route, till the party totalled thirteen! The Prince being expected at the time, Malcolm McAr and a few of our other Valentino's kept modesty in the background, for fear of any mistakes.

Bright and early on the Monday morning, the party drove out to the E.P. Ranch, where they were welcomed by Professor Carlyle, and wasted no time in getting busy with the stock judging. The fact that Prof. Sackville and "we" didn't always see eye to eye in our placings of the classes, only lent spice to the work, or as one lanky student mournfully expressed, "guessing competition." At noon we were called in to have lunch in the Prince's dining room, and fared most sumptuously. "L. B." was apparently in his element, and got very thick with Sir Walter Peacock, the Prince's secretary. "Fancy," as one young gentleman remarked, "sitting in the Prince's own special chair, eating his own grub, after washing in his own bathroom, and drying oneself with his own face towel!" Poor Prince, if he used that towel after ten husky students were through with it! After judging a few more classes in the afternoon, the party left for the "Bar V" ranch, showing their appreciation of the hospitality they had been shown by a spirited rendering of the Varsity yell. Some of the stock we had the privilege of judging was of exceptional class, including some fine specimens of Hampshire and Shropshire sheep, Shorthorn cattle, and a few Clydesdales. A brief visit was paid to the Bar A, and we got back to High River with a much more modest opinion of our several abilities as judges.

Tuesday was a busy day, and included visits to R. A. Wallace, Andrew Dollar, and Joe Leacock. Wallace's Galloways were of special interest, and caused the Scotsmen of the party, who were by no means in a minority, to stick out their chests just a little farther. "Andy" Dollar's Clydesdales came as another dose from the land o' cakes, and Scotty Devlin was in his element once more, but most of us could hardly see the horses for dust. Joe Leacock's Holsteins and his layout struck one as being a good sound commercial proposition, and here we again fared at the expense of our victims. Apparently it is not enough to make a man turn his place upside down, look over and severely criticise his livestock. When one has pulled his place to pieces and told him his purebred stock has all the faults possible, one graciously accepts supper prepared by his long-suffering wife!

The next day was spent in another trio of visits. R. Ness, of De Winton, was the first victim, and had a fine selection of Ayrshires ready for our inspection, also a few Clydes. Mr. Ness didn't get rid of us either until we had had dinner—there were altogether too many Scotsmen in the party. In the afternoon visits were paid to Will Moodie and John Turner to inspect their Clydesdales. Thursday saw us at Strathmore, at the C. P. R. Supply Farm. The day started badly, as Malcolm McAr had the misfortune to get a nasty kick from a Percheron horse, high up on the chest. No bones were broken, but Malcolm was unable to continue the trip, as he was very severely bruised.

On Friday we ploughed our way north from Calgary through snow mud, to the famous Colliett ranch, with its beautifully set out buildings, and magnificent Herefords. The "Gay Lad" family is well known to every stockman, and here we had a chance to view them in their native heath. After dinner we proceeded to Dr. Hays' at Carstairs, where the largest Holstein herd in the province is housed. Every minute of our stay here was enjoyed. Dr. Hays is to be complimented not only for the excellent cattle he is breeding, but also for the planning and layout of the barn, labour saving devices being everywhere in evidence. The layman will appreciate a barn where you drive in to the top floor with your load of fodder, this drop down into the next floor and is ground and mixed, thence to the ground floor where the cows are waiting open-mouthed, and finally a milking machine completes the process of milk production! "All done by kindness."

Olds was reached on Friday evening, in time to judge one class of horses, and then the boys, many of whom had taken their course there before coming up to Varsity, scattered to the four winds and were seen no more till morn. Possibly Jack Howe had the best time here, but we all managed to put in the evening somehow.

After a few more classes at the College Farm, we proceeded to Lacombe, the sixty miles being accomplished in just over two hours. The F. H. Ford won by a dirty neck. The Dominion Experimental Station and

DATES GIVEN FOR SPORTING EVENTS

At a meeting of the Athletic Executive held Tuesday, dates for coming athletic events were fixed. October 25 and November 1st were decided on as dates for the provincial rugby play-off, while the provisional date for inter-varsity rugby was set for November 8th. The provisional dates for inter-varsity soccer are November 1st and 3rd.

A meeting of the Athletic Association will be held on Monday, Oct. 6th, for the purpose of electing the following officers of the executive: Vice-President of the executive, President of rugby, President of baseball and Chairman of inter-faculty hockey.

It was arranged that Cliff Osterland see Mr. West about improving the condition of the track. A committee was also appointed to draw up training blanks.

BASKETBALL TEAM MAKES TOUR B.C.

Varsity Girls Complete Trip Without Defeat—Lucille Dobson Missed

After a season of keen interest and whole-hearted enjoyment in basketball at the University of Alberta, the green and gold quintette journeyed to Banff, Kamloops, Victoria and Penticton to add new laurels to the name of their already famous team. They met the ladies' basketball teams in all these places, and succeeded in carrying off all the honors.

The Varsity team, although they were seriously handicapped by the absence through illness of their jumping centre, Miss Lucille Dobson, and by the fact that the rest of the team were rather tired, due to final examinations, were not content with their already victorious year in the inter-varsity series and provincial league, and decided to tackle the British Columbia teams.

The Victoria team is the champion team of B.C., the Penticton a close second and the Kamloops team third. On the way to B.C. the Varsity team played a game against Banff, where they won easily. The team was met in Banff by Hugh John McDonald, a former student of the University of Alberta, and Mr. McDonald arranged a most enjoyable time for the girls.

In Kamloops the girls again played an excellent game, and again came off victorious. The team stopped off in Vancouver for several days, but no game was played there. In Victoria the outstanding player was Isabelle Crawford. Without her the team would have offered our girls no game at all. In Penticton the team was entertained at a dance held out on a pavilion under the trees. The girls had a glorious time here, and were here again victorious.

They then returned to Calgary, tired but contented, and in Calgary they disbanded. The University is very grateful to the girls who formed the team and worked so hard to make the University of Alberta's Ladies' Basketball team famous—and we are sure that what they have accomplished will be an inspiration to the succeeding basketball teams.

The line-up of this team was:
Miss Helen Beny.....Captain
Miss Olive Caldwell.....Manager
Miss Frances Alexander.....Forward
Miss Peggy Stanford.....Guard
Miss Marguerite Cooper.....Guard
Miss Beth Carmichael.....Centre
Miss Grace Studholme.....Centre

INITIATION NO JOKE, SAY FROSH

(Continued from Page One)

Sophs are quite willing to extend a helping hand to the intelligent Freshie that, taking things in the right spirit, wishes to ask about what he does not know.

No overtown parade will be put on this year. This practice has met with much disapproval in the past, both from outside sources and from within the University.

Furthermore, the resolution passed last fall in the Students' Union allowed for the parade only on the approval of the Council, and since the latter body is not at all in favor, the performances of this year will be wholly confined to the campus and grid.

October 9th will be the big splash of this year's initiation, when the inter-faculty and Freshman track meet will be staged. A flag rush between Freshman and Sophs and other competitive events have been proposed, which, coupled with the regular track events, should create a red-letter day for the class of '28.

T. Henderson and Sons were the last farms to be visited. To describe the stock here would run this article beyond the editor's already stretched patience. Suffice to state that a great finish was made to the trip, eighty-one classes being judged in all.

TUCK THIS YEAR IS GREATLY IMPROVED

New Building Erected and Many New Features Added in Interests of Better Service For Students

Perhaps the most important change from the point of view of the students in residence which has taken place during the summer months is the completion of the new Tuck Shop building. A large, commodious and uniquely designed bungalow has arisen in the place of the former small and somewhat shabby looking biscuit box of former years.

Messrs. Eyrl and Warren, always with an eye to giving the students the very best service possible, undertook the erection of the present building early this summer, and the work is now practically complete. The new Tuck is built in the shape of a bungalow with upstairs windows and a verandah across the front. The long lunch counter and the many tables and chairs provide adequate accommodation in the café. The kitchen has been partitioned off, and the many sanitary devices as found in modern hotel kitchens have been installed. A first-class chef has been engaged, and patrons are assured of real service in this department of the Tuck.

A long service counter has been installed, and practically everything a Varsity student requires is now carried in stock. Trudeau's dry cleaning agency has also been taken over. A cash and carry system has been introduced, as a result of which prices have been cut all round to lower figures than ever before.

The commodious interior immediately impresses the visitor with its cleanliness and good appearance. The hardwood floors look good enough to dance on. The walls will be panelled, and old and new pictures of Varsity athletic teams will be hung there. The proprietors are carefully preserving these old pictures, carved tables and relics of bygone days, which are of historical interest to Varsity students. Vic and Charlie are right on the job, and are to be congratulated on the improvements which they have made, in the interests of better service to their exclusive clientele, the Varsity faculty and students.

TENNIS TOURNAMENT STARTS OCTOBER 6

Sign Entrance Lists Before Saturday

Preparations are now under way for the annual tennis tournament. Notices have been posted in the Arts Building, Medical Building, Pembina and Athabasca Halls.

All those wishing to compete are asked to sign the forms provided in above mentioned places before 6 p.m., October 3rd. In the case of mixed doubles, if you do not have a partner and wish to compete, place your own name only and a partner will be drawn for you.

You are requested to co-operate by playing off your games in the time allotted. All games not played by that time will be forfeited. This rule is necessary in order to finish before the fine weather is over.

The schedule will be posted on Monday morning, October 3rd, in the Arts Building.

An inter-faculty tournament will be arranged later.

Usual Discount to Students

DR. ALEXANDER EXPECTED BACK END OF OCTOBER

Word has been received at the University that Prof. W. H. Alexander, head of the Classics department, is at present in London, England, and will be returning to Canada about the end of October. Dr. Alexander has spent the summer in Europe carrying out his research studies at the famous seats of classical learning in that old world. He was in Greece until the end of July, and in Italy during August. He found Switzerland cold, and also had the misfortune to be met with bad weather in France, where there have been heavy rains recently. He is in London, England, at present, and will remain there until he sails for home.

SUNDAY SERVICES

Divine service is held every Sunday at 11 a.m. in Convocation Hall, and the whole student body, especially Freshmen, are invited to attend. While this is the official University chapel service, attendance is not compulsory, but an effort is made by the choice of prominent speakers to attract a full attendance from among the students to these services. Mr. Conquest is choirmaster for this session, and is anxious to secure as full a choir of singers as possible. Singers with or without previous experience will be made cordially welcome.

The speaker next Sunday will be the Rev. Dr. A. S. Tuttle, principal of Alberta College, and the following Sunday Prof. A. L. Burt.

ARTS HIKE

Arrangements have been made for an Arts hike to White Mud Creek and a hot dog feed there on Monday evening. Further particulars will be posted on the notice-boards soon.

BRILLIANT DALHOUSIE UNIVERSITY STUDENT

(Halifax Chronicle.)

Robert W. Kenney, son of W. W. Kenney, superintendent of the Victoria General Hospital, led the graduating class in Medicine at Dalhousie University, thus winning the university gold medal. Always first in the course of his public school work, Mr. Kenney was winner of the Mayor's gold medal for highest standing in grade eleven; the Harris' gold medal for highest standing in the city of Halifax for three years' high school work; the Lieutenant Governor's medal for high school work. He won the Lindsay prize in second year medicine for highest standing in anatomy. Mr. Kenney, who is 21 years of age, is the youngest member of the graduating class. Out of 31 possible distinctions in his five years course at Dalhousie he has received 25 and in about half of these he has led the class.
